Explanation

The bill requires the State Department of Education (SDE) to administer a teacher apprenticeship program beginning in FY 27. The cost to SDE is dependent on the provisions and funding of the program.

SDE received approximately \$1.5 million in ARPA Education Workforce Development funding since FY 23 for the Connecticut Teacher Registered Apprenticeship Program. The program served four registered apprentices in two pilot school districts, New Britain and Waterbury, in its first year. The program has since expanded to serve 54 registered apprentices in seven school districts. The bill does not provide funding for the program.

Additionally, the bill clarifies that certain grants must be administered within available appropriations and eliminates a requirement for SDE to consult with EASTCONN, resulting in no fiscal impact as the changes are clarifying and procedural in nature.

The Out Years

The annualized ongoing fiscal impact identified above would continue into the future subject to inflation.

OLR Bill Analysis**sHB 5033*****AN ACT IMPLEMENTING THE GOVERNOR'S BUDGET RECOMMENDATIONS FOR EDUCATION.*****SUMMARY**

This bill makes five minor changes to education law.

It repeals the requirement that the State Department of Education (SDE) consult with EASTCONN, the state's regional educational service center that serves eastern Connecticut, to create a data system for school districts to access Teacher Education and Mentoring Program (TEAM) resources and tools at the local level. TEAM is a two-year mentoring program for new teachers that matches them with a trained mentor and requires them to complete instructional units in lesson planning, classroom management, and other topics (§ 1).

The bill also specifies that four existing grants or programs must operate within available appropriations. The programs are:

1. special education training, education, and testing competitive grant for teachers and paraeducators (§ 2);
2. support services for special education students with trauma or behavioral health needs grant (§ 3);
3. the SDE training program for instructional support partners, which must include literacy and math instruction, personalized learning, and individualized instruction for students with disabilities, classroom management, instructional methods and behavioral supports, and transition plans for students with disabilities (§ 4); and
4. the state teacher apprenticeship program (presumably, this refers

to the program established under CGS § 10-146j) (§ 5).
