36 department deems such testing and certification necessary, it shall
37 notify the corporation not less than two weeks after the corporation
38 informs the department of a planned modification to the lottery gaming
39 system. In the event of an emergency requiring a modification to the
40 lottery gaming system, the department shall notify the corporation
41 immediately if it deems testing and certification of such modification
42 necessary. If the department suspects that the integrity of the lottery
43 gaming system may be vulnerable or compromised, the department
44 may require that the lottery gaming system be recertified by a gaming
45 laboratory and the new certification submitted to the department.

56 becomes aware of the corporation's intention to offer a new lottery draw
57 game or to modify an existing lottery draw game or keno. In the event
58 of an emergency requiring a modification to an existing lottery draw
59 game or keno, the department shall notify the corporation immediately
60 if the department deems testing and certification of such modification
61 necessary.

62 (3) The department may develop technical standards against which
63 gaming laboratories shall test lottery draw games and keno for
64 compliance. If the department develops such standards, the

71 standards as the commissioner deems necessary in order to preserve the
72 integrity of gaming or protect consumers from financial harm, to adjust
73 to changes in technology, relevant standards or platform design, or for
74 any other reason in order to preserve the integrity of gaming;

75 (D) Shall post any updates to such standards on the department's
76 Internet web site, and such updates shall be effective thirty days after

87 chapter and any regulations adopted pursuant to the provisions of this
88 chapter, and (C) any additional information needed by the department
89 to certify the lottery game or keno. The corporation shall submit the
90 certification report to the department with its application for approval
91 of the lottery draw game or keno.

92 (5) The department shall review the lottery draw game or keno that
93 is being tested for proper functioning, and consider the test results and
94 certification [submitted by] report from the gaming laboratory. After
95 completing the evaluation of a lottery draw game or keno, the
96 department may approve the lottery draw game or keno for use in the
97 state. The department may suspend [or revoke approval of] a lottery
98 draw game or keno [without notice] if the department has good cause
99 to believe that the continued operation of such game or keno [poses a
100 threat to the security and integrity of gaming in the state] could
101 reasonably cause substantial detriment to the public interest.

102 (6) The corporation shall be responsible for all costs associated with
103 testing and obtaining certification, provided the corporation shall not be
